

MOOT COURT WORKSHOP

Moot Court Workshop By Supreme Court Lawyers in Association with Legal **Thirst.**

Success in Moot Court Competitions is one of the most prominent criteria to evaluate a student's legal understanding and therefore there is tremendous increase in the attention given to Moot Court training. Mooting serves as the most valuable medium for a law student to get a first-hand experience and gaze into a lawyer's life and learn not just about litigation, but also comprehend the nuances of legal research, holistic understanding of factual scenarios and their cogent presentation. While basic moot court training is imparted in most law schools, it is invariably cursory and insufficient to succeed in the complex art of mooting. The workshop aims to bridge this gap and will provide a detailed training in understanding the mooting process, drafting memorials and give useful expert advice to succeed in mooting.
